

# I Cannot Escape the Darkness

## Those Poor Bastards

There is a curse upon my every waking breath  
(And I cannot escape the Darkness)  
It feels like every step is going to be my last  
(And I cannot escape the Darkness)

### CHORUS

Some have tried to lift me up  
But I only bring them down with me  
(For I cannot escape the Darkness)

The iris of my eye is cancerous and blank  
(And I cannot escape the Darkness)  
Tear out your golden hair and stitch it to my face  
(For I cannot escape the Darkness)

Some have tried to lift me up  
But I only bring them down with me  
(For I cannot escape the Darkness)

It's time I crept to go and find another  
I love my hole, now just let me smother

Look at this worthless thing that slithers on your floor  
(And I cannot escape the Darkness)  
Just burn my eyelids shut then shove me out the door  
(For I cannot escape the Darkness)

Some have tried to lift me up  
But I only bring them down with me  
(For I cannot escape the darkness)  
It's time for I crept to go fin another  
I love my hole, now just let me smother
