

Million Lonely Souls

[Chris Hawkey](#)

Running around makes it harder on you
I dont care honey what you wanna do
I got my plans gonna get out of town
There ain't nobody gonna get me down I may remember all the things you said
I may forget that you even exist
I see my life as an opportunity
Be who I am and be all I can be What you do
Only effects you Na Na Na Na Got my future
Its not up to you Well there must be someone out there for me
'cause theres a million lonely souls in the city
Yeah, just like me I got a friend back in Indiana
She says shed love to put me up for a while
Or I could just hit the road and start driving
It feels good to have nothing to lose 2005 Chris Hawkey Music (ASCAP) All Rights Reserved
