Show Me That You Care

Gerry & The Pacemakers

Please, please be mine all of the time
And try to show me that you care
I, I'll be true, true just to you
As long as you show me that you careI'll make you happy in my arms
But you must shower me with charms
Day after day, I'll love you, come what may
As long as you show me that you careI'll make you happy in my arms
But you must shower me with charms
Day after day, I'll love you, come what may
As long as you show me that you care
As long as you show me that you care
