

Scenario

Subvision

Cascading down right through my head
Epiphany of you in bed
Your secrets told
His' yours to keep
To greet me back from sleep

It's just a thing
But nevermind
It's just the darkness of my kind
That you're not mine
But one of foe
Inseminario

It's just a dream
I'm pretty sure
They're just sentiments that needs a cure
That they're not truths
Bestowed on me
Fantasies or telepathy?

It's just a thing
But nevermind
It's just the darkness of my kind
That 'tis not mine
Your diamond glow
Scenario

Every waking hour
I see Barry Manilows
And think of all the power
A broadband 'tween our pillows

Cascading down right through my head
Epiphony of you in bed
Your secrets told
His' yours to keep
To greet me back from sleep

It's just a thing
But nevermind

It's just the darkness of my kind
That you're not mine
But one of foe
Inseminario
It's just a thing
But nevermind
It's just the darkness of my kind
That I'm not thine
In flames of woe
