

Let It Out Now

Leeland

Its like you got to walk like him
Got to talk like her, got to be like them
Everybody knows you follow the crowd
Or get singled out But God says who you are
Not the world or movie stars
Dont you know
He holds the answers in His hands? Were stuck in a system
Is there anybody different?
Is anybody listening?
Is anybody listening? Everyone has their own sound
Let it out now, let it out now
Theres nothing wrong with living loud
Let it out now, let it out now Im drawing the line between
Being them or being me
Im not ashamed to call myself
One of Yours, Lord But its a narrow path
Ive got to break from the pack
No turning back
No turning back Were stuck in a system
Is there anybody different?
Is anybody listening?
Is anybody listening? Everyone has their own sound
Let it out now, let it out now
Theres nothing wrong with living loud
Let it out now, let it out now Yes, Gods looking for people
With a passion in their hearts
Were Gods children
We need to shine bright
We need to shine bright Everyone has their own sound
And dont you know all Gods children
Have their sound? Everyone has their own sound
Let it out now, let it out now
Theres nothing wrong with living loud
Let it out now, let it out now Everyone, everyone
