Mondo Generator

You know, it's like, ah, you know,
it's just a, it's just a, it's just a different thing,
you know, it's just, uh, it, because, you know, it's like, you know,
there's no real way you can put your finger on what that is,
you know, because it, whatever it is, you know,
some things we have to pass over, you know the,
you know it's like, you know it's just, um,
but that, that's the deal....Everyday I wake up feeling this way

I take it downtown
With all the action going down
Stike your match, strike your match
Cook it upI'm feeling so sick
I feel so fucking sick
On the bathroom floorGotta get out and get right
Hustling little girls
Cheating little boys
YeahGotta get out
Gotta get out and get right
Gotta get out
I gotta get out no more
No more, no more
I gotta fuckI'm feeling so sick
I'm feeling so sick
On the bathroom floor
I'm feeling so sick
No moreYeahI'm feeling so sick
I feel so sick
No more
