

# Threw Off

Treal Lee

Eighteen and he was sent from home  
to fight a war that was not his own  
he was fighting for his life paid the  
ultimate price now his mothers all alone  
they brought a flag to her door saying  
she wont see her only son no more  
now she is she suppose to make it  
when her precise life she hates it  
a heart thats broken to the core. yeah  
do you hear the world crying cuz our people  
are dieing but things will get better they'll  
get better if we stick together and together we'll  
sing.

old man man x 16  
she has forget she's a wife but she seems to be losing  
the fight she is dieing with cancer and no doctor has the answer soon with the angels she fly's.  
it was his very first time and from her love he was blind  
she wont go without a consult he doesn't see a problem test  
come back he cannot rewind do you hear the world crying  
cuz people are dieing but things will get better they'll  
get better if we stick together and together we'll  
sing.  
old man man x16
