(what Is) Love?

Jennifer Lopez

People told me I should write a love song
Girl you sound so angry, you could use some variation
but I'm lonely, negative relations
I've been hurt so many times I don't have the patience
But I wished for so long for some one to come and show me
Lead by example, cause I've been waiting
I've tried every age, I'm so tired of the game
I want to be someone's girl, will you show me the way

What if... I never find, and I'm left behind (should I keep hoping for love)
what if....I'm still the same, status doesn't change (gotta keep hoping for love)
what is love what is love what is love....somebody show me
what is love what is love what is love....cause if ya told me
What is love what is love what is love.... I would be lonely
What is love.... please show me what is love

I've had blind dates, hooked up with some real flakes
I gone out with church boys, musicians are thee worst
I've tries so hard cause I'm just so die hard
Tried my best to play the part, wish you could see inside
But I wished for so long for some one to come and show me
Lead by example, cause I've been waiting
I've tried every age, I'm so tired of the game
I want to be someone's girl, will you show me the way
What if... I never find, and I'm left behind (should I keep hoping for love)
what if....I'm still the same, status doesn't change (gotta keep hoping for love)
what is love what is love what is love....somebody show me
what is love what is love what is love....cause if ya told me
What is love what is love what is love.... I would be lonely
What is love.... please show me what is love

- nanana -

What is love?

I've been alone for the last past three years on Valentines Day
Christmas is no exception, but things will ? ? ?
Back and forth, same action
I just need this to happen, I'm missing in loves embraces

If you would show me

What if... I never find, and I'm left behind (should I keep hoping for love)
what if....I'm still the same, status doesn't change (gotta keep hoping for love)
what is love what is love what is love....somebody show me
what is love what is love what is love....cause if ya told me
What is love what is love what is love.... I would be lonely
What is love.... please show me what is love
- nanana -

What is love x8
