

Disneyland (feat. Willow Smith)

Jaden Smith

[Intro: Together]

[?] says Palace brothers and sisters live forever, bless them [Chorus: Jaden Smith]

We should go to Disney

And we should go to Disney

Ride rides until we're dizzy

There's way too many zeros [Verse 1: Willow Smith]

And you got me looking, got me looking

I remember first day we were talking

I told you I had a secret, that I would not tell it

You still don't know

But I can walk down the street like my mind don't know

And I can talk to these people like they might not know

But I'm always floating in the clouds

I'm always speaking with the angels, speaking with the E.T's

Extraterrestrials, extra [?], eat, eat your vegetables [Bridge: Jaden Smith]

Baby we should fall in love

For only three days, for only three days

Baby we should fall in love

For only three days (only three days)

Oh we should fall in love

For only three days, for only three days

Baby we should go to Disney

Ride rides until we're dizzy

Baby we should fall in love

For only three days, for only three days

I could tell you three ways, I could tell you three ways
