Never Walk Away

Breaking Point

You can't take everything away
'Cause I will fight and beat you at your game
And nothing or no one
Can take the place of all these empty memories
You left me time and time again
So you waste your life away
By playing all these games
But you know, I would never let you win
And you want your life to change
So you find someone to blame
But you know, I will never walk away
Today's the day, I won't turn away
'Cause I'll make sure that you taste my pain
'Cause nothing or no one
Can take away the pain that you gave me
You played me time and time again
So you waste your life away
By playing all these games
But you know, I would never let you win
And you want your life to change
So you find someone to blame
But you know, I will never walk away
'Cause I'm searching
For reasons not to throw this all away
So you waste your life away
By playing all these games
But you know, I would never let you win
And you want your life to change
So you find someone to blame
But you know, I will never walk away
