Leap of Faith

R. Kelly

There is strength deep inside me
That I never knew I had
There's a fire within burnin' bright
There is a love inside of me
That I never thought I'd feel
Until the day you came into my life, yeahAnd it was you that were there
When no one else was
And you show me a love unknown, oohYou kept the fire burnin'
You kept hope alive
And when my soul was fallin'
You helped me to survive
And you led the way
Encouraged me to take that leap of faithThere's a dream that I dream
But never knew it would come true
There's a place I never thought that I would be, ooh
There is a chance that I took
That I never thought I'd take
Until you came and helped me to believe, ohYou were there
When no one else was
And you showed me a love unknownYou kept the fire burnin'
And you kept hope alive
And when my soul was fallin'
You helped me to survive
And you led the way
Encouraged me to take that leap of faith
Leap of faith, oh yeah, oh ohYou showed me just how
How to believe in me, in me, oh
You moved that tree
And tore that forest there for meYou kept the fire burnin'
You kept hope alive
And when my soul was fallin'
You helped me to survive
You led the way
Encouraged me to take the leap of faith, yeahYou kept the fire burnin'
You kept hope alive
And when my soul was fallin'
You helped me to survive
You led the way
Encouraging me to takeThe fire, hope, soul with you

You, you led, encouraged me
That leap of faith and make it over
Now I owe my thanks to you, oh, ohYou kept the fire burnin'
You kept hope alive
And when my soul was fallin'
You helped me to survive
Oh yes, you did
Pushing me to take that leap of faithYou kept the fire burnin'
You kept hope alive
And when my soul was fallin'
You helped me to survive, oh
