

# Eskimo Blue Day

## Jefferson Starship

Snow cuts loose from the frozen  
Until it joins with the African sea  
In moving it changes its cold and its name  
The reason I come and go is the same  
    Animal game for me  
    You call it rain  
    But the human name  
    Doesn't mean shit to a tree  
If you don't mind heat in your river and  
    Fork tongue talking from me  
    Swim like an eel fantastic snake  
    Take my love when it's free  
    Electric feel with me  
    You call it loud  
    But the human crowd  
    Doesn't mean shit to a tree  
    Change the strings and notes slide  
Change the bridge and string shift down  
    Shift the notes and bride sings  
    Fire eating people  
    Rising toys of the sun  
    Energy dies without body warm  
    Icicles ruin your gun  
    Water my roots the natural thing  
        Natural spring to the sea  
    Sulphur springs make my body float  
    Like a ship made of logs from a tree  
        Redwoods talk to me  
        Say it plainly  
        The human name  
        Doesn't mean shit to a tree  
    Snow called water going violent  
        Damn the end of the stream  
    Too much cold in one place breaks  
That's why you might know what I mean  
    Consider how small you are  
    Compared to your scream  
        The human dream  
    Doesn't mean shit to a tree
