Do You See

Koffee Brown

Never say never, now I know better
Always said I'll never fall in love, oh no
Never felt pressure, till I got with you
No I finally found someone
Do you, do you see
Do you see what I see
A future, a family, you and me, baby
Do you feel how I feel
How I love you so much
You're all I want
Use to play men's, that was tens, with the Benz
And I ran for the dividends
Until I found a special friend in you
My life has changed romantically, catastrophe, it has to be
All because of you, oh baby, baby
I never loved someone
Quite the way I loved you honey
You brighten my days, you are my sun
Oh, it's the way that you love me, baby

Do you see what I see
A future, a family, you and me, baby
Do you feel how I feel
How I love you so much
You're all I want
I never ever loved someone
Quite the way I loved you honey
You brighten my days, you are my sun
Oh, it's the way that you love me, baby
Do you see what I see
A future, a family, you and me, baby
Do you feel how I feel
How I love you so much
You're all I want
Do you see, do you see what I
Do you feel, do you feel what I
Do you see what I see, what I see
Do you feel, do you feel what I
Do you see, do you see what I

Do you feel what I feel
Oh come on now?
