What I Do Best

Nonpoint

Mayday mayday
I'm going down in flames
Now its finally too late
Didn't think it would end this way
Steel bones
Concrete skin
Rooted in stone below
Its your turn
Come on in
And see what gonna happen to you
Drowning in the wake
The wake of you and me
If you threw me a line
I'd grab hold and pull you out to sea
Elbows
Fist to face
Neck in brace
Chalk line trace
Police chase me
All because you chose to face me, face me
There' nothing you can say to me you haven't said before
It's in one ear and out the other I can't take anymore
Its my time to ruin this cause thats what I do best

It's in one ear and out the other you're just like all the rest
Really could use a hand
I'm sinking fast in quicksand
Words they have no meaning
And I'm screaming at the ceiling
Eyes up
Hands follow
There's no tomorrow
I can't see
Any meaning
In anything you're saying
There' nothing you can say to me you haven't said before
It's in one ear and out the other I can't take anymore
Its my time to ruin this cause thats what I do best
It's in one ear and out the other you're just like all the rest

you're gonna see exactly what I can do to you
you're gonna feel the pain I'm bringing.
Bringing to you
There' nothing you can say to me you haven't said before
It's in one ear and out the other I can't take anymore
Its my time to ruin this cause thats what I do best
It's in one ear and out the other you're just like all the rest
