Hyper Crush

[Holly]

Im going crazy, light it up
People be like what the fuck
Its just the liquor on my tongue
We gotta spaceship, in the club
People be like what the fuck
We came to tear this party up

Party up

We came to tear this party up

Party up

Party up

Party up

We came to tear this party up[Donny]

Check, one two

We came to rush the booth
And set this party loose
Turn the speakers to eleven
Cause music is a weapon
