

# I Am a Human Head

## They Might Be Giants

I am a human head  
And my best friend is also a head  
I don't really need my best friend  
Now my friend is gone  
And I'm only a head by myself  
I find, I don't need my whole head  
Now I'm just the top of a head  
Just the scalp and the hair  
I don't like the scalp, just the hair  
What do I really need?  
Best friend, also a head  
Just the head, just the scalp, hair  
Friend, no head  
No scalp, no hair  
I am only one human hair  
With no scalp for a home  
All I need's the top of a head  
Now all I am is just a scalp  
I ain't have any head  
I'd be glad if I had a head  
Now I have a head, look at me  
I'm a fine floating head  
Where is my friend, the other head?
