Superhuman

Juventa

Wish I was a bird
Wish I was a plane
Wish that I was Superman
And you are Lois Lane
Wish that I could run
And be there in a flash
Bond me to your molecules
Like I was Atom Man
But I can't be superhuman
I'm just lonely
Without my woman
No I can't be
I can't be superhuman
Without you
Wish I could teleport
And not just use the telephone
I wish that I could swim to port
And just meet you later on
Sugar
Hop in my batmobile and just zoom across the town
Show you to the batcave

Show you the mansion where I get down
But I can't be superhuman
I'm just lonely
Without my woman
No I can't be
I can't be superhuman
Without you
Youre like the sun
Utility belt
Highly-advanced instruments
You are a serum experiment
For the better
For the better
No I can't be superhuman
I'm just lonely
Without my woman
No I can't be

I can't be superhuman
Without you
Without you, my love
