

Anywhere Anyone

Dntel

I love you. I love you. I love you. I love you.

How can you love me if you don't love yourself? I love you. (I love you.)

How can you love me if you don't love yourself? I love you. (I love you.)

How can you love me if you don't love yourself? I love you.

How can you love me if you don't love yourself? I love you.

How can I love you if I don't love myself? I love you.

We're not going anywhere. Sun is bright and standing still, it's alright.

We're not going anywhere. Sun is bright and standing still, it's alright.

We're not going anywhere. Sun is bright and standing still, it's alright.

We're not going anywhere.

We're not going anywhere. Sun is bright and standing still, it's alright.

We're not going anywhere. Anywhere

I love you.

How can you love me if you don't love yourself?

I love you, anyway. I love you. I love you, anyway. I love you.
