

Used For Glue

Rival Schools

Days of the conflicts you've been in
Traces of conscience you don't want to hear
You hear it now
You listen, hear a sound
You missed it Taken by conscience or taken by guilt
You live in the problems you decided to build
You hear it now
You listen and hear a sound that can't be still The blame is found, you got it
Rode when she was new
But wasn't told when she was through
Yeah Dazed for time you were into
Praise from the crowd that you wanted to fool
You call them now, they're waiting
To hear a sound that can't be still The blame is found, you got it
Rode when she was new
But wasn't told when she was through
Yeah
