Lonely Days

Drums Of Death

When will you phone and will you tell me
And will you try because I'm lonely
I wanna know what's happening
And can you tell me so I won't be
I won't be lonely anymore
Tell me now what I should try
These lonely days will stay and ride
Wanna follow through to something new
Tell me now, what should I do?
Tell me now, what should I do?
A little drunk I'm pissin' on the street
As I'm walking I'm trippin' on my own feet
I start to laugh and then I wonder why
I choose to stare I'm staring at, staring at
Staring at the sky again
Tell me now what I should try

These lonely days will stay and ride
Wanna follow through to something new
Tell me now, what should I do?
Tell me now, what should I do?
Tell me now what I should try
These lonely days will stay and ride
Wanna follow through to something new
Tell me now what I should try
These lonely days will stay and ride
Tell me now what I should try
These lonely days will stay and ride
Wanna follow through to something new
Tell me now, what should I do?
Tell me now, what should I do?
Tell me now, what should I do?
