

Lonely School

Tommy Shaw

I drove past where we used to live
You might have caught a glimpse of me as I passed by
I swear it's still hard to believe But at the time it seemed so clear to me
I thought I had it all worked out
I packed all that was dear to me
I left without a doubt that I'd given it all I had to give
Still nothing moved, nothing changed - nothing will
I did everything that I could do But now I've had time to sort it out
And graduate from lonely school
And now I've got to let you know
It's me who was the fool It was me, baby - I was wrong
But how can I say it?
You must have known it all along
It was you who was always strong
And I've got to tell you now
I've got to show you how I've changed so many of my ways
I left the band, steadied my hand, learned a trade
And I'm coming back this time to stay And you won't recognize the boy
Who graduated lonely school
'Cause I've become quite wise about
Who was or not the fool It was me, baby - I was wrong
But how can I say it?
You must have known it all along
It was me, baby - I was wrong
And I've got to tell you now
I've got to show you how, ooh, ooh, ooh At the time, it seemed so clear to me
You know I had it all worked out
I packed all that was dear to me
And I left without a doubt It was me, baby - I was wrong
But how can I say it?
You must have known it all along
It was you who was always strong
And I've got to tell you now
I've got to show you now Oh, oh, oh, oh
I couldn't say it
