

# Best Days

## Des'ree

Pi papana  
I tried to run away  
Somehow I couldn't stay  
You reached to hold my hand  
You led me to the promised land  
There we were all alone  
There are no danger zones  
We only had each other's eyes And I feel now  
They were the best days of my life  
Hey yeah, yeah Where did you find this place?  
Had we arrived in space?  
Here we are kings and queens  
You know exactly what I mean  
Now we are all alone  
There were no telephones  
We only have each other's smiles And I feel now  
They were the best days of my life  
Hey yeah, yeah  
Yes, I feel now  
They were the best days of my life The astonishment, written on my face  
As the beauty, it happy dazed  
Of the scenery, I was so impressed  
By the way the paradise was smartly dressed  
Hey yeah, yeah  
Hey yeah, yeah I tried to disappear  
From all my aches and fears  
But now I close my eyes and journey  
To this paradise  
So beautiful, simply wonderful  
I sit down and take my time, ohh ho And I feel now  
They were the best days of  
Yes, I know now  
They were the best days of  
I'm convinced now  
They were the best days of my life Best days
