

30/30-150

Stone Sour

I am a dominant gene, live as I die
Never say forever 'cause forever's a lie
I can see right through you, so I can't ignore you
The story changes but the ending will bore you I tried to tell you but you simply obeyed
They didn't listen, so they threw you away
Now all you do is talk
I don't wanna hear your bullshit
Is this what you want? This is where it begins
This is where it ends
This is where it begins
And this is where it ends They called us a dead generation
They told us that we wouldn't survive
They left us alone in the maelstrom
As you can see, we're all plenty alive We know where you are and were coming
Let's see you say that shit to our face
30/30-150 remembers, 30/30-150 hates In my own peculiar way, I feel mercurial
Before I get ahead of myself again
I know the where but I still don't know the when You wanna live in a one-sided world
Be prepared for a whole world of hurt
Now with the grand facade
I don't wanna be an angel
I just want to be God They called us a dead generation
They told us that we wouldn't survive
They left us alone in the maelstrom
As you can see, we're all plenty alive We know where you are and were coming
Let's see you say that shit to our face
30/30-150 remembers, 30/30-150 hates, hates I am a fucking machine fueled by the past
Memory's a memory until it's a fact
I can bury the hatchet and let some shit go
But I got too many grudges to hold Saw a lot of people die in the end
I never want to walk that road again
Now I will never give up
I don't wanna have it all
I just wanna have enough This is where it begins
And this is where it ends
And this is where it begins
And this is where it ends They called us a dead generation
They told us that we wouldn't survive
They left us alone in the maelstrom

As you can see, we're all plenty alive We know where you are and were coming

Let's see you say that shit to our face

30/30-150 remembers, 30/30-150 hates
