

In a World of My Own Making

Fight

If I could find a place
To leave this world behind
Somewhere in time and space
Where I could ease my mind
I'd take you there
Where we could be alone
No one can find this place
The secret will be ours
With no more pain to face
We'll live amongst the stars
In solitude, and we can wonder free
Alone, at last just you and me
Our island universe
A world unto its own
Forgetting all the worst of times
They're gone, you know we are as one
To make a life of peace
Escape, into eternal sleep
