

What If

Colbie Caillat

I see us standing over there
You look around without a care
I'll pretend you notice me
I look in your eyes and what'd ya see
Is made up in my mind
Am I just wasting time
I think this could be love
I'm serious What if we were made for each other
Born to become best friends and lovers
I want to stay right here
In this moment with you
Over and over and over again What if this could be a real love
A love, a love, yeah
I write our names down in the sand
Picturing all our plans
I close my eyes and I can see
You, and you ask, "Will you marry me?" I see us standing over there
You look around without a care
I'll pretend you notice me
I look in your eyes and what'd ya see
Is made up in my mind
Am I just wasting time
I think this could be love
I'm serious What if we were made for each other
Born to become best friends and lovers
I want to stay right here
In this moment with you
Over and over and over again What if this could be a real love
A love, a love, yeah
I don't know what to think
Is this real or just a dream
In my heart is where you'll be
I'll keep waiting till we meet What if were made for each other
Born to become best friends and lovers
I want to stay right here
In this moment with you
Over and over and over again What if this could be a real love
A love, a love, yeah
Boy, you know you really make my heart stop

Stop, stop
Oh, what if this real love
What if this real love
Oh, boy, you make my heart stop
You make my heart stop
You make my heart stop Oh oh oh oh oh
You make my heart stop
Meet me at the sandbox
