If It's Not Enough

BEGINNERS

We left it waiting
Alone in our stare
Tired of trying
To find what was there
We never say the things we need
We keep them locked up
Hoping someone will come and save you from yourself

Trying to make sense is only making us crazy
Hard to believe something you already know
Nobody wants to leave
No one wants to be left here
Nobody wants to see how it will end

What it takes
What you love
What if it's not enough
What if we
Can not change
How do we move on this way

Tell me if it's not enough
Tell me if it's not enough
Cause I'll be walking in this world
But I can fix a heart that's broke
Tell me if it's not enough
Tell is it not enough
Promise that it'll all be fine
But baby, I just can't this time

Honesty, honestly leads to trouble
Dim the lights
Pull up the cover
I want to get lost in our skin just how we used to
Breathing, begin falling apart

When you saw such a mess
Even though
It's our best
What if we couldn't change

How do we move on this way

Tell me if it's not enough
Tell me if it's not enough
Cause I'll be walking in this world
But I can fix a heart that's broke
Tell me if it's not enough
Tell me is it not enough
Promise that it'll all be fine
But baby, I just can't this time
