

Let Go

Jon McLaughlin

Verse 1:

This is it This time its really over

We look over our shoulder

And hesitate

We're like a drug

We're only craving' till we have it

We're too spoiled fickle addicts

Trying to walk away

Chorus:

So if there is some way to get you back

Some way that I could act

Baby please don't tell me now

Oh if there is

Some way to change your mind

Turn back the hand of time

I don't wanna know

Baby, please

Let go

Verse 2:

Soon as your gone

All of my demons come to their senses

And break down my defenses

So easily

Time after time

I'm crawling back to where we started

Leaving behind my broken-hearted

dignity

Chorus:

So if there is some way to get you back

Some way that I could act

Baby please don't tell me now

And if there is

Some way to change your mind

Turn back the hand of time

I don't wanna know

Baby, please

Let go

Bridge:

We never hit the ground

We only fall so slowly
And would you want me around
If you could
Let go me
We're holding tighter now
Cause we don't wanna be so lonely
There's only one way out
If you could
Let go of me
Chorus:
So if there is some way to get you back
Some way that I could act
Baby please don't tell me now
Oh
And if there is
Some way to change your mind
And turn back the hand of time
I don't wanna know
Baby, please
Let go
