

History Reversed

Communic

Always in a state of evolution
Some people try to differ from one another
To beat life's quiz is not an easy task
Hot pepper produce an unpleasant pain
Yet fools come back to feel the burn
Are we lost in the garden of hypocrisy?
Now we have formed a riot against the masses
Information lost before it reach the point
Now we have formed a riot against the masses
Information lost before it reach the point
All system lock down
Go to self destruct
All system lock down
Go to self destruct
In a state of evolution
Some people try to differ from one another
An unpleasant pain when we feel the burn
The future is set, the earth is run by a nuclear sun
Leaders sit high, as we live like worms
The circle is closed the history reversed
All we have done for you to be
The world has become what we didn't see
It's time to rise, there's no easy way out
Now we have formed a riot against the masses
Information lost before it reach the point
Now we have formed a riot against the masses
Information lost before it reach the point
All system lock down
Go to self destruct
All system lock down
Go to self destruct
In a state of evolution
Some people try to differ from one another
An unpleasant pain when we feel the burn
Are we lost in the garden of hypocrisy?
