

Higher (ft. Lil Eddie)

Yellow Claw

Let's not let the seconds go to waste, waste, waste
Let's get lost together on the streets, streets, streets
We can trip all night, hanging like we're satellites
Oh oh oh oh oh oh

Let's not let the seconds go to waste, waste, waste Til we wake up, we play all, we rollin' them dice

We're living on the edge, yeah, cause we 'bout that life

Say we wake up, we play all, we rollin' them dice

We're living on the edge, yeah, we're living on the edge, yeah

We get far, without y'all, than ever

Don't look down, we're in this together

Do walk down, without fall, whatever

We get far, we're higher than ever

Higher than ever

We get far, we're higher than ever We get far, we're higher than ever

Higher than ever We can do whatever in the dark

No one's watching, soulless take it far Til we wake up, we play all, we rollin' them dice

We're living on the edge, yeah, cause we 'bout that life

Say we wake up, we play all, we rollin' them dice

We're living on the edge, yeah, we're living on the edge, yeah

We get far, without y'all, than ever

Don't look down, we're in this together

Do walk down, without fall, whatever

We get far, we're higher than ever

Higher than ever

We get far, we're higher than ever
