

# Bomber (Live in Wacken)

Motörhead

Oh  
Aah  
Ain't a hope in hell  
Nothing is gonna bring us down  
The way we fly  
Five miles off the ground  
Because we shoot to kill  
And you know we always will  
It's a bomber, it's a bomberScream a thousand miles  
Hear the black death rising moan  
Firestorm coming closer  
Napalm to the bone  
Because you know we do it right  
A mission every night  
It's a bomber, it's a bomberNo night fighter  
Gonna stop us getting through  
The sirens make you shiver  
You bet my aim is true  
Because you know we aim to please  
Bring you to your knees  
It's a bomber, it's a bomber, it's a bomberYeah
