Revolution

Burn Season

Follow me, follow me, follow meCan you hear me?
Can you see?
There's your enemy, enemy, enemy
Can you hear me?
Can you breathe?Cause ya face down
You gotta get up, you want it
Shoved down, you've gotta get up
You want itCause it has to start somewhere
Has to start sometimeI'm with you
Can you tell me are you with me?Now's the revolution
They're pushin you down
They got it
You want it
Don't give it upNow's the revolution
It has to start sometime
3, 2, 1...Don't let them take take away
They think they've won
I watch them fade awayCause ya...face down
You gotta get up, you want it
Shoved down, you've gotta get up
You want itCause it has to start somewhere
Has to start sometimeI'm with you
Can you tell me are you with me?Now's the revolution
They're pushin you down
They got it
You want it
Don't give it upNow's the revolution
It has to start sometimeNow's the revolution
They're pushin you down
They got it
You want it
Don't give it upNow's the revolution
It has to start sometime
Starts right nowAre you alive?
Cause I've got this message for you
Are you alive?
Got one thing left to tell you
Are you alive?
I've got this message

Are you alive?...Now!
Revolution!
Now!
Revolution!
It starts right now
Now!
It starts right now
Now!I'm with you
Can you tell me you still with me?Now's the revolution
They're pushin you down
They got it
You want it
Don't give it upNow's the revolution
Has to start sometimeNow's the revolution
They're pushin you down
They got it
You want it
Don't give it upNow's the revolution
Because it has to start sometime
It starts right now
