

Twin Heart

Julia Marcell

Let's go out and play
I don't feel too well I'm sorry
We don't have much time
I'm too young to die I'm so scaredIf you go away either way
I will always love you
I can't let you stay
you will never let me goIf you wanna go, just go
And leave me here with
All my pain and suffering
But just remember that
I am you and that you are meLet's just go and play
I would rather stay at home
You're always so hungry
Like a monster you take all I gotPlease I need you now, you will have you back
After I'm not here anymore
Even though you're here
I can barely feel your presenceBut if you wanna go, just go
And leave me here with
All my pain and suffering
But just remember
We should never be apart
Cause you are me and I am youDon't go
Don't go
Don't go awayLet's go out and play
I don't feel too well I'm sorry
We don't have much time
I'm too young to die I'm so scaredIf you go away either way
I will always love you
I can't let you stay
You will never let me go
