

Cold

PJ

[Intro]

Cold, cold, ice cold

Cold, ice, ice cold[Verse 1]

Ain't it crazy how I'm still here?

By the way, it happened last year

Ain't it crazy how I'm not scared?

I got it where I want, yeah[Chorus]

And all I need is a lil time

All I need is some friends of mine

I'm always gonna be good, yeah

You can't stop what's ice cold[Verse 2]

Think I'm going to the top, yeah

You can disagree but I don't care

Got more soul and I got flair

Do it for the ones that are still scared
