

Feed My Dreams

Coal Chamber

Time is a canvas and I wil paint it
And with you I bestow what I have it
And you are my colors and you are my colors
And you are my paint to make my life
Feed my dreams some more
Come feed my dreams
You are the clay that molds my life and I spin you around and you see it through
You are the one that I mold into and I mold into and you're everything
Feed my dreams some more
Come feed my dreams
You can't lie before I you shunned
Wild and you lied I am whole again inside you
Feed my dreams some more

Come feed my dreams
You are the fabric that moves my life and the wool that keeps me together inside and you stitch me 'cause you
you walk me through and
I am yours and there's nothing before you
Feed my dreams some more
Come feed my dreams
Feed my dreams some more
So much inside you
I can't tell inside you inside you
I'm glad there's so much inside you
Inside you inside you
I'm not asleep
