

# It's About Time

## Nate Sallie

So you say, you wanna stay at home  
Another night in your comfort zone  
I know its easy to get caught up  
In the same routineSo many things that you avoid  
But you dont have to be paranoid  
Your heart says, go but youre in limbo  
Somewhere in between youre always talkingBut its getting you nowhere, take the first step  
And it might just take you there, yeahIt's about time you got your feet wet  
It's about time you took a dive in the deep end  
Been a long time, you don't need a reason  
Give it up get it out, do what you believe inIt's about time you got a little crazy  
It's about time so jump in, baby  
Been a long time waiting on the sidelines  
Live it up let it out baby, it's about timeYou watch your exercise videos  
While you down a bag of Oreos  
You say, you want to start tomorrow  
That was yesterdayIts time to go, so dont be late  
Its easy to procrastinate  
The same excuses that you always use  
Sound really lameYou are the only thing thats holdin' yourself back  
If you keep waiting you might miss another chance  
YeahIt's about time you got your feet wet  
It's about time you took a dive in the deep end  
Been a long time, you don't need a reason  
Give it up get it out, do what you believe inIt's about time you got a little crazy  
It's about time so jump in, baby  
Been a long time waiting on the sidelines  
Live it up let it out baby, it's about timeLets live for this moment  
Cause who knows what tomorrow will bring  
The road is wide open and right here right now  
Turn it around, dont let your life pass you byIt's about time you got your feet wet  
It's about time you took a dive in the deep end  
Been a long time, you don't need a reason  
Give it up get it out, do what you believe inIt's about time you got a little crazy  
It's about time so jump in, baby  
Been a long time waiting on the sidelines  
Live it up let it out baby, it's about timeGotta get your feet wet, take a dive in the deep end  
You don't need a reason, do what you believe in  
You gotta get a little crazy, jump in, babyLive it up, let it out, give it up, get it out

Been a long time, been a long time  
Been a long time, you gotta get a little crazy  
So jump in baby, it's about time
