Tippy Toe

Utada

Every time I think about you, Heaven knows I fall into a groove
You're like a great interlude
Every time I think about your body, my body says, "Ooh, ooh"
Every time I think about you Heaven needs a prayer
'Cuz you're married and you've even got a family too
Pray that they don't hear you
Now let me see you dance on your tippy toe, ooh
What a perfect life, they think you've got right
Problems kept inside, look neat and organized
What you need in life is some wonder
A new friend with visions like you
Nobody has to know
Stay very close to the floor
Nobody has to know
Careful when you close the door
Nobody has to know
When we tippy toe, tippy toe
My body under your body
Here we go, everybody 3, 2, 1
Every time I think about you, Heaven knows I fall into a groove
You're like a great interlude
Every time I think about your body, my body says, "Ooh, ooh"
Every time I think about you Heaven needs a prayer
'Cuz you're married and you've even got a family too
Pray that they don't hear you
Now let me see you dance on your tippy toe, ooh
When the thrill subsides
Will you still be mine?
Worry infiltrates my head till I kill it, I fill it instead with
Improper visions of you
Nobody has to know
Stay very close to the floor
Nobody has to know
Careful when you close the door
Nobody has to know
When we tippy toe, tippy toe
Nobody has to know, body screaming, "More"
On your mark, set, 3, 2, 1
Every time I think about you, Heaven knows I fall into a groove

You're like a great interlude
Every time I think about your body, my body says, "Ooh, ooh"
Every time I think about you Heaven needs a prayer
'Cuz you're married and you've even got a family too
Pray that they don't hear you
Now let me see you dance on your tippy toe, ooh
Every time I think about you, Heaven knows I fall into a groove
You're like a great interlude
Every time I think about your body, my body says, "Ooh, ooh"
Every time I think about you Heaven needs a prayer
'Cuz you're married and you've even got a family too
Pray that they don't hear you
Now let me see you dance on your tippy toe, ooh
Some Heaven
Some Heaven
Some Heaven
Some Heaven
