

Kilimanjaro

Kensington

Keep me away
Leave me alone
Keep me awayTo kill us in a way we won't dieKeep me away
Leave me alone
Keep me awayTo kill us in a way we won't die
To kill us in a way we won't die
To kill us in a way we won't die
Give me a way
We're going on
Give me a way
We're going on
Give me a way
We're going on
Give me a way
We're goingOn
If this is it then let me go
On
If this is it then let me outTo kill us in a way we won't die
To kill us in a way we won't die
Keep me away
Give me a way
We're going
Keep me away
Give me a way
We're goingOn
If this is it then let me go
On
If this is it don't lead me
On
If this is it then let me go
On
If this is it then let me outCruel you found the way
Cruel you found the wayCruel you found the way
When all you were, is already gone
Cruel you found the way
When all you were, is already gone
