

# Twilight

## Sub Focus

Bring on the twilight,  
take me to the other side.  
Bring on the twilight.The glow that comes tonight,  
see the last ray of light.  
Bring on the twilight.Bring on the twilight,  
take me to the other side.  
Bring on the twilight.The glow that comes tonight,  
see the last ray of light.Bring on the twilight.  
So come twilight,  
change is in the air tonight.  
So come twilight,  
Change is in the air tonight.
