

# You Called Me

## Chris Loggins

This morning  
In a rush to get ready for work  
I've spilled hot coffee on my shirt  
It hurt  
I ran to catch the bus to be on time  
Yeah  
But the driver sped away  
And left me running behind  
Well then my knees dropped to the ground  
And I was really feeling down  
Then baby you called me  
You called me to tell me you love me  
And everything was alright  
I wanted to buy you a real nice dress  
So I saved up some money from my paychecks  
I went down to your favorite department store  
Yeah  
Oh and everything they had was more than I could afford  
Oh my Lord

That's when my knees dropped to the ground  
And I was really feeling down  
Then baby you called me  
You called me just to tell me you love me  
And everything was alright  
Oh baby baby  
Oh you turn me around  
Whenever you pick up that line  
Well I'm so thankful for that dime  
Every time you call me  
You call me  
Just to tell me you love me  
Oh baby you called me  
You called me just to tell me you love me  
You called me  
You called me just to tell me you love me  
You called me  
You called me just to tell me you love me
