(unfinished/uncorrected below)
But . never been the type ... show got that spice to feel your .
And girl this should be ... giving you what you want .
There are no words that can compare with you
Is like every little thing
Everything i say
Everything I say I just stop and ... why why
Is like every little thing
Everything i say
Everything I say I just stop and ... why why

The way you dress up your style . come come my baby
Only you can drive me crazy
Is like every little thing
