

Written In Stone

Kolohe Kai

just like the sea
its waves never come to an end
our love will be like that
our love will be like that

just like the sky its color will always be blue
just like my love for you
forever will be true

(Pre chorus)

Its hard to get there if your not
fully trying so lets give it our all
so that were never far away
if we just try our best
then we got the rest
of our lives we love each day

(chorus)

our love it be written in stone never ever will we be alone
if we put faith into action
well find a pretty lovely reaction
our love it be written in stone never ever will we be alone
if we put faith into action
well find a pretty lovely reaction
and that is our love written in stone

Just like the sun
its presents will always be there
ill never leave i swear
i wouldn't even dare
cause our happiness
will last till the moon is no more
never has it left before noo
will it

pre chorus

chorus

prechorus

chorus

end
