

Faded Beauty Queens

The Thrills

How did you do it?
Well, she said, "smoke and mirrors
Anything for love, anything for love"Low expectations
Breathing down my back
No grudge unworthy of holding
I know that won't be hard
I know that won't be hardYou can't take the city oh no
Out of a city girlWell I don't know how we ended up here
Wide eyed and new money with faded beauty queens
Well I don't know how we ended up here
Right before I met you, I had fire in my eyesDown my the river
I found a little town
Down by the river
Where all the lovers go, where all the lovers goMaking teenage boys feel like a Christmas tree
Ogling eyes, ogling eyes
I know you dread the day when it's any other wayYou can't take the city oh no
Out of a city girlWell I don't know how we ended up here
Wide eyed and new money with faded beauty queens
Well I don't know how we ended up here
Right before I met you, I had fire in my eyesYou can't take the city oh no
Out of a city girlWell I don't know how we ended up here
Wide eyed and new money with faded beauty queens
Well I don't know how we ended up here
Right before I met you, I had fire in my eyes
In my eyes
