

Mexico (1977)

Richard Swift

I got you in my pocket
I got you in my skein
They wrapped you in forever
It's longer than it seems

Kiki's heart was broken
Pieces on the floor
And every time he had you
It broke a little more
And every time he had you
It broke a little more

I can see you glitter
With angels on your spine
You know I never knew you
But I still call you mine
You know I never knew you
But I still call you mine
