Show You

DM3

(Not feeling, Not Not feeling, Not Not feeling feeling feeling)

Went the long way, no, took the wrong way,
Flopped and dropped out of college like Kanye,
I don't want to neek, don't want to stray,
Had a fat pocket but crime don't pay,
Just 'cause I let dreams go down stream,
I was too bust with my Islander Cream,
I was born to be a star it seems,
So keep listening and keep your eye on my team,
I've been, laid back from way back when,
The big man I paid back from way back then,
Having power turned my boys to men,
And I'm a real man some bois pretend,
Then again I never had shit to lose,
Two of the feds were on me like shit to shoes,
I had shit to move not shit to prove,
Had two choices and I was quick to choose.

(Not feeling, Not Not feeling, Not Not feeling feeling feeling)

Still griming, I work harder, (harder)
Roll Deep is the name and we will, (show you)
Roll Deep is the name and we will show, (listen)
Still griming, I work harder, (yeh)
Roll Deep is the name and we will, (show you)
Roll deep is the name and we will show you, (Eski Boi)

Look I don't mind if you don't like me I will still be doing my thing,
Whether you like it or not, you either like me or you don't,
It kinda don't mean nothing to me though,
Try and insult me, if I ain't got a knife I got a poll,
And Ik now you wouldn't want it up ure a-hole,
So if I was you I wouldn't give an opinion, when you might get beaten,
You shouldn't listen to anyone just chatting to anything,
When you criticise me you only boost my adrenaline,
Who the hell are you to tell me you ain't feeling me anyway,
I'm a young heavy weight, you don't want to get weighed,
And have you been mistaked maybe tell me what you take me fore,
I've heard it all before, I'm waiting for it,

Tryna take me for a boi I will not stand for it,
I promise that hwen you see me again you will not get a warning,
'Cause I don't think your ready for me.

(Not feeling, Not Not feeling, Not Not feeling feeling feeling)

Still griming, I work harder, (harder)
Roll Deep is the name and we will, (show you)
Roll Deep is the name and we will show, (listen)
Still griming, I work harder, (yeh)
Roll Deep is the name and we will, (show you)
Roll deep is the name and we will show you, (Eski Boi)

Roll Deeps the name and yeh Trims repping it,
This is our zone so don't try stepping it,
Every area code knows we're the best at dis,
And if you don't know then your not from the residence,
We're on paper dough, dead presidents,
Whether it comes in paper, o's or white substances,
Or from royalties, advertising and publishing we Roll Deeping,
Some of ya'll can't stomach Trim, I'm from the streets,
When I get something for nothing about my for p's
Pussy, paper, punk and plucking,
Or some different reasons, i'll be ducking,
Trim or Trimophy, trims on a far thing,
If it's beef it's him or me so I first to buzz 'im.

(Not feeling, Not Not feeling, Not Not feeling feeling feeling)

Still griming, I work harder, (harder)
Roll Deep is the name and we will, (show you)
Roll Deep is the name and we will show, (listen)
Still griming, I work harder, (yeh)
Roll Deep is the name and we will, (show you)
Roll deep is the name and we will show you, (Eski Boi)

Alright it's time,
It's time for me a stand and make this thingy mine,
It's time for me to stand and get into the grind,
And take that energy and make it be mine,
I'm kinda hot, feeling with some dodgy dealings,
Tough like a batty toast that reached the ceiling,
Hot like jerk but I ain't a chicken,
separate the real from the fake ones,
Talk about the things that they ain't done,
Or they'd like to, Put 'em on pause fuck it just eject you,

I'm like the kid dats come straight from his final plans,
Got my english got my grammar, punctuation is fine,
Lets go see him like a cinema flick,
But I ain't bringing my chick,
I'm bring some kind of ready-for-it,
Like a hammer when extended i'll be making the hits,
Pay attention I will nail you.

(Not feeling, Not Not feeling, Not Not feeling feeling feeling)

Still griming, I work harder, (harder)
Roll Deep is the name and we will, (show you)
Roll Deep is the name and we will show, (listen)
Still griming, I work harder, (yeh)
Roll Deep is the name and we will, (show you)
Roll deep is the name and we will show you, (Eski Boi)
