Camera Shy

School Boy Humor

There is no hope for you and me,cause this long drive might be
(The last time I take the wheel)
You're not sure how you feel.

I think the spotlight always gives you stage fright
Wish this song would end right
Wish that you would stop making my head spin
Over,and over its over but what if we...
If we just pretend.

You'll play the love and baby I'll play the lead.
So strike a pose and fake a smile you're coming with me.
I'll strum my guitar cause girl I know how you are
You're just a little bit camera shy, but you're still a star.*

This isn't right you said,it takes some time you know
Let's try again tonight this fight is getting old.
I think the spotlight always gives you stage fright
Wish this song would end right.
Wish that you would stop making my head spin
We're done but old enough to build up
For it wasn't false love
Wish this song would end.
I wish this song would end....

You'll play the love and baby I'll play the lead
So strike a pose and fake a smile you're coming with me.
I'll strum my guitar cause girl i know how you are
You're just a little bit camera shy but your still a star.*

We're done tonight, we got to pick it up slowly.
Can i hear your voice.
what a perfect story.
Can i pick you up.
You can be my star.
Turn the spotlights on we're closed for the final scene
the final scene,final scene

You'll play the love and baby I'll play the lead
So strike a pose and fake a smile you're coming with me.

I'll strum my guitar cause girl i know how you are
You're just a little bit camera shy but your still a star.
You're just a little bit camera shy but your still a star.
You're just a little bit camera shy but your still a star.:)
