I Love You

Daniel Lanois

A man carried metal
Carried gold
More than he could handle
More than he could holdIt weighed him down
To a sand shallowed grave
Where his bones were eaten
By a heat waveWhile here it rains all night
And it blows a sweet breeze
Think, I'll call you up
And say, "Please, baby, please"I love you, I love you
Yeah, I love you
Yeah, I love youAh, the dream machine
Makes it hard to see
If I could stand outside myself
And watch it come to meI'd make the dream
Filter down to my fingers
And rip at the fools head
And follow your scent that lingers'Cause I love you
Yeah, I love you
I love you
Yeah, I love you'Til the crash
And the booming of the white bomb
Come sure, come soon
Come leave just one songOne song, one beat
One dust, one end, one for all
One stone for the marking
For the dream when it fallsWhen I love you
When I love you
Yeah, I love you
Oh yeah, I love you
I love you
