Longest Night

Howie Day

Is it dark where you are?
Can you count the stars where you are?
Do you feel like you are
A thousand miles from home?Are you lost where you are?
Can you find your way when you're so far?
Do you fear where you are?
A thousand nights aloneSo here we are set into motion
We'll steal a car and crash in the ocean
You and I are caught in a fading light
On the longest nightIt's enough just to find love
It's the only thing to be sure of
So hard to let go of
A thousand times or moreI was close to a fault line
Heaven knows you showed up in time
Was it real?
Now I feel like I'm never coming downSo here we are set into motion
Steal a car, crash in the ocean
You and I caught in a fading light
On the longest nightI recall when we were together
Even now it seems like forever
So alive caught in a fading light
On the longest nightCan we go too far to find what is waiting here?
A little fall from grace on the longest night
Did we go too far to find what is waiting here?
We'll take a little time to open up againIs it dark where you are?
Can you count the stars where you are?
