

You Left Me a Song

Heather Nova

Out of the glitter and the shine
Out of the corner of my eye
Saw you walkin' I freeze the frame
My lucky game We could've been strangers if we tried
Move to the rhythm side by side
Maybe a glance across the room
Blue moon Why did the hours burn so long?
Sunset and shadows cold
I hear the music playin' on
I know you're gone
But you
You left me a song Under the skylight, after dark
Crept to find you, what a lark
We were like children stripping down
The joy we found But even the lights that turn me on
Make it so hard to see beyond
Make it a rainbow in my mind
This borrowed time Why did the hours burn so long?
Sunset and shadows cold
I hear the music playin' on
I know you're gone
But you
You left me a song Huh, you left me
Huh huh, you left me
A song Why did the hours burn so long?
Sunset and shadows cold
I hear the music playin' on
I know you're gone
But you
You left me a song
You left me a song
You left me a song
