

Too Close to Being Over

Defiance

sometimes it feels to close to being over
and i want to get rvenge before it is to late
revenge on every coward fucking pig
antagonizing, victimizing protectors of the state
where human respect is in order
freedom is based on respect
respect must be earned
by the spilling of their blood
make no mistakes what the fucking pigs are
pist off and drunk with power waiting to brutalize
won't take the brutality any fuckin longer
can hardly wait to see the fear in their eyesthe bastards beat us in line and keep us as slaves
fuck them all and piss on their graves
one more time to get beaten, arrested or harrassed
might be the end of that pig
