Together

Phil Joel

We searched for shells on the beach, we did it every year
We'd carry them back home to make the beach feel near
If I could take home a tree, it would be the center piece
Nobody told me that I'd miss You like thisTogether, on the wrong side of the world
Together, just a boy and a girl
Together, on the wrong side of the world
Together, and You know we'll always be strong
'Cause together we belongThis is no roll of the dice
There are no fools in this game
We followed the Son
And we'll do it againTogether, on the wrong side of the world
Together, just a boy and a girl
Together, on the wrong side of the world
Together, just a boy and a girlYou know I know that You have led us here
This part it could not be more clear
I know that someday we will understand
As Your plan unfolds, still all we need to know
Is that our home is with YouWe searched for shells on the beach, we did it every year
We'd carry them back home to make the beach feelTogether, on the wrong side of the world
Together, just a boy and a girl
Together, on the wrong side of the world
Together, just a boy and a girlHeaven is not so far away
(Together)
We will be home someday
(Together)
Heaven is not so far away
(Together)
We will be home someday
(Together)Heaven is not so far away
(Together)
We will be home someday
(Together)
Heaven is not so far away
(Together)
We will be home someday
(Together)Heaven is not so far away
(Together)
We will be home someday
(Together)

Heaven is not so far away
(Together)
We will be home someday
(Together)Heaven is not so far away
(Together)
We will be home someday
(Together)
Heaven is not so far away
(Together)
We will be home someday
(Together)
